Many of us go for a morning walk because it is a healthy and a pleasant way to begin the day. Holidays, of course, are the best time for it. One can go on long leisurely walks.

Hiking is basically going on long walks for exercise and discovery. If you decide to take up hiking, the only equipment you need is a pair of comfortable and study shoes. Your school sports shoes are ideal for this purpose. Choose a different destination every day. Start early in the morning for fresh, clean air. Walk briskly. But avoid jogging as it will tire you out.

It's is a good idea to plan a circular route beginning from and ending at your hotel or lodge. This will help you see more places. If you wish to hike to a place far from your hotel, take a bus back. You can thus enjoy a long walk without tiring your self.
